Re: Modification of General Conditional Major Operating Permit (GCMP-03)
"Hot Mix Asphalt Plants"
BANKS CONSTRUCTION CO
Charleston County, South Carolina
GCM03-9900-0322

Dear Mr. Lane:

The Bureau of Air Quality has evaluated the modification request for your facility, received on, September 09, 2010, noting the following:

- Revision to incorporate latest stack test results.

As set forth in the authorization letter granting coverage to operate under the terms and conditions of General Conditional Major Operating Permit (GCMP-03) "Hot Mix Asphalt Plants", the "General Information" and "Record of Revisions" pages are being revised and replaced by the Bureau to reflect this modification to the Information Page of the General Permit for the above-referenced facility.

Enclosed is a revised "General Information" page and updated "Record of Revisions" page. These pages will replace the previously issued "General Information" and "Record of Revisions" pages mailed to you. All other information documenting your facility's coverage under this permit remains unchanged. Please remember these pages serve as documentation of your facility's individual coverage under this general permit and should be kept with all other relative permit documents.

Please review these pages carefully for errors or omissions and notify your permit writer, Christopher D Hardee, at 803-898-0039 if any are discovered or if you need any further assistance.

Sincerely,

Elizabeth J. Basil, Director
Engineering Services Division
Bureau of Air Quality

E. EXEMPT EQUIPMENT OR PROCESSES:

ID	Description (Exemption Date)	Basis
A	30,000 gallon liquid asphalt storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)
B	30,000 gallon liquid asphalt storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)
C	37,500 gallon #4 fuel oil storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)
D	20,000 gallon #2 recycled fuel oil storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)
E	20,000 gallon #2 recycled fuel oil storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)
F	15,000 gallon #2 recycled fuel oil storage tank. (Oct 25, 2006)	SC Regulation 62.1, Section II(B)(2)(h)

F. CONDITIONS

Condition Number	Equipment ID	Conditions
1	N/A	On August 5, 2010 this plant was tested at an average production rate of 462.67 tons per hour and an aggregate moisture content of 4.5%. The average particulate emission during the testing was 0.0021 grains per dry standard cubic foot. This combination of operating conditions has been shown to meet the requirements of this office through testing and is considered acceptable operation of the plant. Following the Guidance Document titled "Source testing for Asphalt Production" dated March 15, 2001, written by this Bureau, this facility will not need to be limited. Increase in the production rate up to the rated production of 500 TPH does meet applicable requirements.
